ABOUT ME

A highly motivated and results-driven Frontend Developer with two years of experience and a solid background in Artificial intelligence, complemented by hands-on experience in Python and Odoo development.

WORK EXPERIENCE

Python/Odoo developer

IRAM [02/2024 – 09/2024]

Country: Syria

- Attended the BTCO (**Backend Technical Consultant Onboarding**) course, gaining in-depth knowledge of Odoo architecture, module development, and best practices for customization and deployment.
- Developed and customized Odoo modules (v15, v16, v17):
 - Created Odoo module for Security Cameras that fetches data automatically from multiple sources
 - Created Odoo module for fetching data from a Revit add-in which I also made using C#
- Collaborated closely with a cross-functional team of developers and project managers to ensure seamless integration of Odoo solutions with existing systems.

Front-end Developer

Gluetron [03/2023 – 08/2023]

Address: Remotely , (India)

- Successfully developed and maintained multiple front-end projects, showcasing strong technical skills and attention to detail.
- Collaborated effectively with Laravel back-end developers, ensuring seamless integration of front-end and back end functionalities
- Worked closely with UI/UX designers to translate their design concepts into visually appealing and user-friendly web applications

AI developer Intern

Deeptorch [2023 – 2024]

Country: Syria

- Learned advanced principles of statistics and probability, applying them to enhance machine learning models.
- Worked on an object detection project, coding YOLO v1 and v2 from scratch, gaining a deep understanding of neural network architectures.
- Developed and implemented data analysis projects, focusing on data cleaning, data mining, and preprocessing to improve data quality and model performance.

Front-end Developer

Freelancer [01/2021 – Current]

- Provided one-on-one tutoring and mentoring to aspiring frontend developers, imparting essential HTML, CSS, and JavaScript skills.
- Maintained clean, modular, and well-documented code.
- Successfully managed multiple projects, on time and on budget.

ICPC Contestant

[2019 – Current]

- Solved over 400 problems on Codeforces and Leetcode.
- Competed at Universities level demonstrating exceptional problem-solving skills.
- Collaborated within a team under strict time constraints to solve complex coding challenges, showcasing the ability to work effectively in high-pressure, competitive environments.

EDUCATION AND TRAINING

Informatics Engineering - Artificial Intelligence

Tishreen University [2019 – 2024]

City: Lattakia | Country: Syria

DIGITAL SKILLS

Pytorch / TensorFlow / OpenCV / Pillow / Pandas / Scikit-learn / Matplotlib / HTML / CSS / JavaScript / TypeScript / React.js / Next.js / Redux / Bootstrap / Tailwind CSS / SASS / Git (Github / Gitlab) / RESTful APIs / GraphQL / Postman / Data Structures / Problem Solving / Python / C++ / Java / OOP / PostgreSQL / Odoo / XML

PROJECTS

Electro Store

A responsive e-commerce gaming web application Built using React.js, Tailwind CSS, Auth0 authentication SDK for Log-in and Commerce.js SDK for back-end

- <https://electro-m.netlify.app> (Live view)
- <https://github.com/majdcx/Electro> (Source code)

Tech Blog

Simple responsive blog built with Next.js, TailwindCSS, SASS and GraphQL with Hygraph (GraphCMS)

- <https://blog-cx.vercel.app> (Live view)
- <https://github.com/majdcx/Blog> (Source code)

Cryptox

Fully responsive website displays Cryptocurrencies price ,exchange and news using coingecko API and Rapid API Built using React.js (including Chart.js and React router 6) and Tailwind CSS

- <https://cryptox-m.netlify.app> (Live view)
- <https://github.com/majdcx/Cryptox> (Source code)

OLYOLI

Fully functioning shorts social app built with React.js, laravel, bootstrap,pure css and alot more

- olyoli.com (live view)
- Closed source

LANGUAGE SKILLS

Mother tongue(s): Arabic

Other language(s): English | German
